THE KWIK CHANGE FAMILY

The **Kwik Change Screen System** is the easiest, most versatile and most practical way of preparing screens for printing hollow glass and ceramic products. It is suitable for all types of printing machines whether manual, semi-automatic or fully automatic operation

Kwik 换版系统是中空玻璃和陶瓷产业最简单，最多功能和最实用的备置丝印网版的方法。这个换版系统适合所有丝印设备，不管是手动、半自动或者全自动的丝印都可以用。

FRAMES 网框

Product 产品	Application 应用	Product 产品	Application 应用
End Mounting Frames 两头固定式框	For Strutz, Rosario, Kammann K14 and all manual machines 适合以上列举品牌及手动机器	Handled Product Frames 带把柄框	Both End and Side Mounting versions for all types of semi-automatic and fully automatic machines 适合所有半自动和全自动设备
Side Mounting Frames 两边固定式框	For Tecno 5, Fermac, Isimat, Dubuit & Kammann machines 适合以上列举品牌机器	Deep Frames 高架框	43mm deep instead of the standard 26mm deep for most types of machine 43mm 深度，替代标准的 26mm 深度，适合大部分机器。
CNC Frames 计算机数控框	For Balsfulland CNC machines 适合以上列举机器	Splash Guard Frames 防溅框	25mm up-stand reduces ink splashing at high speeds. 25mm 翻边减少高速印花时的油墨溅出
Thin Side Frame 薄滑进式框	For printing close to the neck of bottles. Fits all types of machines 瓶颈印花，适合所有机器	Screen Heater Cables & Contact Bars 网版加热电缆和接触条	Cable Connectors to suit all types of printing machines 电缆接头适合所有印花机器

KWIK CHANGE REPLACEMENT SCREENS KWIK 系统的丝网耗品

Stainless Steel fabrics are used for electrically heated screens for printing Enamels and Organic Inks in Thermoplastic Medium 不锈钢编织网用于电热网版，瓷釉和有机墨水的热塑性塑料丝印		Polyester and Nylon Screens for printing Organic inks and UV Inks in Cold paste or Oil medium 纤维和尼龙丝网用于有机油墨和UV油墨的冷印或者油介质	
---	---	--	---

We also offer **Metalised Polyester Fabrics** which offer the electrical conductivity of stainless steel combined with the flexibility of polyester

我们也可以提供镀金属的纤维丝网，这样既有金属的导电性也有纤维的弹性。
